## STOCK MARKET STILL BOOMING

Itlantic Coast Line Common Again Breaks its Record.

LOUISVILLE SCORES A RISE

St. Paul Reaches the Top Notch-The Sloss Common Takes a Sudden Jump and is Very Closely

(By Associated Press.)

NEW YORK, July 25.—Violent price movements and very heavy dealings in some of the prominent high-priced stocks were the characteristics of to-day's stock market. There was large realizing at intervals, both in the stocks which were moved upwards to-day and in others which had previously advanced. The industrials and the low-prized railroad stocks played only a small part in the market, the high-priced standard stocks traversing all portions of the country being in the van of all the day's movements. The Grangers, the Pacifics, the Southern trunk lines and the Eastern trunk lines all had their turn in the day's activity.

being in the van of all the day's he ments. The Grangers, the Pacifics, he Southern trunk lines and the Eastern trunk lines all had their turn in the day's activity.

The bulls had the advantage of continuing satisfactory conditions of the crops, of industrial activity and of the money market. But the effective factors in the day's trading were rumors of in the day's trading were rumors of of reat financial operations looking to the harmonizing and consolidating of control of the great railroad systems of the Gountry, All of these were more or; loss vague, and none of them was accorded open or official sanction. That regarding Rock Island was the most clearly defined, and it was noticeable that that stock, with something like explicit information to go on, fell out of the forefront of the trading and failed to maintain all of vesterday's advance. There was authoritative intimation also that another large railroad system is to be absorbed, the prevailing belief pointing to St. Louis and San Francisco. Assertions that Atchison was to be taken over were effectively denied. Rumors continued thick concerning St. Paul, the one assigning it to Union Pacific being most persistent, but without authentic countenance. The Southern trunk line consolidation story and the Eastern trunk line readjustment story also did effective service in the stock market without receiving any formal authorization.

Even the supposed hostility between the Pennsylvania and the Goulds was made to do service by the buils on the theory that the defeat of the Pennsylvania Hudson Rilver tunnel contract was due to Gould influence and, therefore, a buil card for that group of securities, while it was alleged that the Pennsylvania Hudson Rilver tunnel contract was due to Gould influence and, therefore, a build card for that group of securities, while it was alleged that the Pennsylvania interests were trying to control Atchison with a view to a transcontinental system in retallation for the Gould influence for the week's exports of gold. The market c

COTTON MARKETS. NEW YORK, July 25.—The cotton market opened weak with prices 1915 points lower under a bad scare of belated near month longs who were frightened away by the issuance of 40,000 bales July notices, which, following the 35,000 published last Tuesday, for a time created a semi-panic among the buils. Not until July dropped to 8,15 and August to 8,08 did the market show the least symptom of recuperative cover.

among the bulls. Not until July dropped to 8.15 and August to 8.03 dld the market show the least symptom of recuperative power, and it was not until mid-day that a positively steady feeling developed. Then it was learned that strong interests had stopped the notices and would immediately ship the cotton to the Northern mills or to Europe.

In the early afternoon conservative operators began to quietly gather in stray lots of July and August, while later month shorts beat a retreat. For the rest of the session the tone was steadily upward with investment buying something of a feature. In the last hour July shorts endeavored to cover up, but found the market almost totally bare of offerings. As against 8.15 on the first break July worked up to 8.44; August advanced from \$8.03 to 8.23; while the late months held quite firm at about last night's final bids. The close was very steady with prices net 1 point lower to 7 points higher, this being about the top notch of the session. Total sales were estimated at 300,000 bales, a large portion of which was sumer and early fall delivery options.

Cotton futures opened weak; closed very steady.

Total, 8.522.003 bales.

COFFEE MARKET. COFFEE MARKET.

NEW YORK, July 25.—COFFEE—The market for coffee futures opened steady with prices unchanged and followed an irregular course, at one time being 5 noints net higher on active demand let by shorts and the cliqué, and then later losing improvement and easing off 5 points rurther before the closed. The market closed steady, net unchanged to 5 points lower. Sales 78,500 bags. Spot Rio. quiet; No. 7 invoice, 5½c.; mild, quiet; Cordova, 8@11½c.

CHICAGO MARKET. CHICAGO, ILL., July 25.-Grain traders behalf the odd spectacle to-day of oats

selling higher than both wheat or corn. and yet the prenomena hardly had a ripple in the dull and uninteresting business routine. July new cats sold at 12c, when a few shorts wanted the stuff. Lash data were absorbed by the bull leaders at as high as 71c. in order to keep them from the shorts. While oats were selling diblets at these fancy figures. September wheat was around 13½, and the hitherto fancy July corn at something under 67c. In general, however, it may be said the July corners were resting. Shorts in wheat, corn and oats in that month seemed penned in by the big interests. The other markets were doing little because of fair weather, good crops reports and other bearish influences, which, in turn had little effect because of the fears of July manipulation. In the end September wheat closed %61/2c. down; September corn %c. lower; July corn 1½c, lower; September oats %61/2c, lower, and July oats ½c. higher. Provisions were very irregular and closed 12½-2017½c. lower.

The leading futures ranged as follows:

# SHARP MOVEMENT IN STOCK PRICES

Dealings in Some High-Priced Issues Was Heavy.

REALIZING LARGE AT TIMES

This Took Place in Stocks That Moved Upward To-Day, or Had Previously Advanced-Closing Irregular, With Few Stocks at Top-

The stock market yesterday was more or less nervous, but it was strong and active from begining to end. The most delive stocks were atchison, Union Pacific, St. Paul, Missouri Pacific and Louisville and Nasnville. It was incorrectly stated in this review yesterday that St. Paul had once sold as high as 195. The error occurred in contining the common and preferred stock. The preferred did sell at the figure named last year, but the highest price obtained for the common was 188. Since that time the stock has sold 30 points lower, but yesterday it broke the record and went up to 18% it was predicted last year that St. Paul would go to 200, and that prediction was again made in yesterday's trading.

Missouri Pacific was strong on the report that the fine corn crop this year would enable that road to earn at least 10 per cent. on its stock. Atchison's strength was also due to the favorable crop reports.

strength was also due to the lavorable crop reports.
LOUISVILLE'S BOOM.
Louisville and Nashville had the appearance of rising in spite of an effort to hold it down. It opened in London at 142, but opened in New York at 143. It then went up to 145½, then sold down to 143½, then ductuated between that point and 145, and finally closed at 145½.
Southern Railway was active and fairly strong in sympathy with Louisville, as the impression grows that some movement is on foot to merge the Southern roads.

as the impression grows that some movement is on foot to merge the Southern roads.

In spite of a poor showing on earnings Chesapeake and Ohio also enjoyed a substantial rise. For the third week in July the earnings decreased \$67,240. On the other hand Norfolk and Western earnings increased \$67,852, but there was no rise in price. Some of the Richmond brokers and traders, however, are very builtish on Norfolk and Western and believe that it will go much higher.

A GOOD CLOSE.

During the afternoon the strength of the market increased and there was good buying of a number of stocks. The strength in the last hour was thought to be due somewhat to the expectation of a good bank statement to-day. It is said that in spite of the exportation of gold the banks have gained during the week nearly \$2,000,000 in cash. It is not known, of course, how the loan account stands.

Atlantic Coast Line again broke the record vesterday and sold at 170. Coast

stands.
Atlantic Coast Line again broke the record yesterday and sold at 170. Coast Line of Connecticut broke its record and sold at 283½. Later on 290 was bid for this stock and none offered.

There was a sudden movement yesterday in Sloss common. A number of bidlers were after it, but reports from New York were that none was to be had. At the close of the market 35 was bid.

CHESAPEAKE AND OHIO.

The New York Commercial Advertiser says:

says:
The Chesapeake and Ohio Railway Company, like the Norfolk and Western, has grown tremendously in the past decade. Its gross earnings have nearly doubled in that time, as shown by the following

 Total income
 \$ 5,955,586

 nterest, taxes, etc.
 3,953,89

 Surplus
 \$ 2,001,891

The net earnings for the fiscal year ending June, 1902, are not yet published, but the company reports net earnings for the first eleven months of this year of \$5,712,-258. The company earned June, 1901, net \$544,702. By combining this amount with the amount reported for the first eleven months it will give net earnings for the year of \$6,256,990, an increase of \$451,329 over the preceding year. Assuming fixed charges are not increased, this will leave net earnings applicable to dividends \$2,452,000, or et, it to 4.4 per cent, on the present outstanding capital stock of \$90,533,400.
